End-of-life announcement – Power Xpert meter 4000/6000/8000

As technology continues to evolve, we strive to provide our customers with the most advanced metering offerings. For this reason, after more than 17 years, we are announcing the end-of-life (EOL) for Power Xpert meter 4000/6000/8000 (PXM468K) and accessories, effective August 2025. These meters have been superseded by the updated Power Xpert quality (PXQ) metering platform, which offers enhanced capabilities such as better data resolution, higher accuracy, improved connectivity options, and more robust cybersecurity in a smaller installation footprint.

Part number cross reference
For new projects, the following part numbers are recommended and should be used, moving forward.

Family	Legacy Part Number	Recommended PXQ Part Number for *New Construction* Projects
